The International Association of Flight Paramedics Announces Name Change

The Board of Directors of the International Association of Flight Paramedics (IAFP), is pleased to announce that the Association has changed our name. The new name of the former IAFP is the International Association of Flight and Critical Care Paramedics (IAFCCP). The name change was necessary in order to adequately represent the diversity of our membership. Our membership is the highest it has ever been due to combining air and ground components of critical care paramedic transport. The name change was not taken lightly, almost two years of debate, discussion and surveying the membership, went into making this decision. Please join us in supporting the new association and name while benefiting from the strength in greater numbers.

The IAFCCP is dedicated to providing advocacy, leadership development and educational opportunities for critical care paramedics. We strive to strengthen and unite critical caregivers to enhance safe, efficient and quality patient care world wide.
